What is an "Identity of Interest?"

FHA defines an "identity of interest" as any relationship where the purchaser and seller are related, and/or affiliated through a business relationship. This could, for example, be parent/child as buyer/seller, corporation selling to an employee, persons who are partners in other projects as buyer/seller. FHA restricts the loan to value on such loans to 75% of the lesser of the property value plus closing costs or acquisition cost for investor properties/non-occupying co-borrower transactions; or 85% of the lesser of the property value plus closing costs or acquisition cost for owner occupied properties.

Check the option below that describes your situation:

**I do not** have an "identity of interest" with the seller of the property I plan to purchase with the FHA financing for which I have applied.

**I do** have an "identity of interest" with the seller of the property I plan to purchase with the FHA financing for which I have applied. Further, I understand that my loan-to-value ratio is restricted as follows:

to 85% of the lesser of the property value plus closing costs or acquisition cost since I will occupy the property;

to 75% of the lesser of the property value plus closing costs or acquisition cost since there is a non-occupying co-borrower or a non-occupying borrower which will not occupy the property as a principal residence.

My relationship with the seller is: \_\_\_\_\_
